Year 1

Last week something very weird happened at our school. Mr. Walker found greengos on the metal bars. Year one went outside and saw some patterns on the field. How do think he felt? We went outside because there was grass all over school and we wanted to look at the clues. Mr Walker had put metal fences around the crop circle to keep us safe. When we got back into the classroom Mr Thorp showed us some pictures. They were of odd liants, eaded alien faces and UFO's! The next day Mr Walker let a police report for us to read. It said Mrs. Pepper was missing!

Year 2

What an astonishing day it has been! Over the half term holidays aliens tried to invade the school. There was slime all over the aliens dropped a big sign on the main field. How do you think the aliens got in?

On our way to class we saw green, gloopy, disgusting slime on all the doors! There was something outside and we all wanted to see it but we had to do our maths lesson first.

Eventually after our lesson we got to go outside and see what it was. Outside there was a sign on the ground and everyone was shocked. The slime was on the barriers and the caution

the sign to have a closer look. The slime actually looked poisonous!

Later we ventured outside to have a closer look, there was an enormous pattern that looked like a peace sign. Mrs Lucid's, Mrs Hornby's, Mrs Simond's and Mr Alstok's class were trembling with fear. But soon people calmed down and showed a bit of bravery.

When we returned to the classroom something very mysterious was on Mrs Lucid's desk. There was an unusual envelope that had a letter and pictures were not just ordinary pictures they were pictures of aliens! I knew that I could not say that it was fake, because the evidence was right in front of me.

The next day we got an unexpected letter from the Humberstone Police Station, it said that a woman called Mrs Pepper heard a sound from Penshurst Primary School. When they got back Mrs Pepper was missing. Where could Mrs Pepper be?

What a terrifying day it has been! What if we never find Mrs Pepper?

Year 3

Crop Circle Discovery

On Saturday 1st June, a mysterious U.F.O. (Unidentified Flying Object) was reported to have landed in the field of Penshurst Primary School. Local residents reported some unfamiliar and unknown noise coming from behind the hedges of the school grounds. The local Police Force went to check the school field that night and they discovered an unexplainable Crop Circle with a pattern in it. They also found a dirty size 10 shoe covered with a slimy substance. The police are still continuing their detailed search.

At around 18:24, the police officers found that 2 local residents, Mr Withers and Mrs Pepper were missing from their residential homes after watering the plants in their front garden on a lovely day.

We were able to get a chance to speak to the school caretaker, Mr Walker who was the first person at the scene. I couldn't believe what I was seeing... never knew crops existed until now! he continued. The local police got so immediately came to the school after the incident was reported. It's still a mystery to who the shoe belongs to. We managed to get a statement from the head officer, PC Bries explained. We are slightly worried of what's going to happen to Mr Withers but we think that he owns the shoe. If anyone has information please could you call us.

It's gone to a light that the 2 witnesses, Mrs Pepper and Mr Withers have probably been kidnapped by the alien spacecraft because we can't get in contact. If any one has any information or evidence, please don't wait with the police immediately. If you can't bear wait about this, then go to www.PenshurstDaily.com.

Year 4

Alien Catastrophe at School!

Yesterday evening at 20:30 the police attended a disturbance that occurred at Penshurst Primary School and they noticed a peculiar symbol on the grass.

At 19:00 yesterday night, a close resident called the police to report that they had heard some strange noises coming from Penshurst grounds. Penshurst is a school in Northern Yorkshire in Hesale. An additional call was made by a different, alarmed resident and the police sent out a patrol van to the school at around 19:30. Upon hearing an unknown voice screaming, the police rushed into the school and found an unusual symbol scratched into the ground on the school field. Not just that but there was green, sticky and gooey slime scattered on the field

Slime discovered at Penshurst Primary School.

When the school opened, the same slime was covering many parts of the school. At this time, nothing else seemed to be missing everything was how it usually was.

GCTV conjectures that there was a U.F.O. in the school grounds.

PC Lucky, who arrived at the scene, said "It was a very mysterious call, as soon as we got to the school, something didn't particularly feel right - it went shivers down my spine. It was colder than it usually was. We found a size 10 shoe next

to the crop circle that we found earlier."

Mr Walker, Penshursts caretaker told us "I was called to the scene a few minutes after the police, after they made their discovery they asked me to let them in. People were saying it could of been aliens!"

Meanwhile, the search continues for the local residents who called the police. Nothing has been heard from the residents since the night of the incident. Police have told us if you see anything peculiar in the sky or any green slime be sure to call 999 and head back to your house as soon as possible.

UFO Sighting

Yesterday evening, at approximately 7pm, Mr Pepper and Mr Withers (two local residents of Hassle) heard many strange noises across the street at Penshurst Primary School Hassle. Promptly police were called.

The call was received by PC Steward and PC Briers who were the first to arrive at the scene. When they surveyed the area they witnessed nothing unusual until a deafening screech was resulted in a call for back-up. Mr Walker (the caretaker) had said, "It was the most

peculiar thing I have ever heard in my 20 years of caretaking."

At around 20:30 the two police officers and Mr Walker discovered a most round

pattern marked into the grass. As the officers got nearer to the unique symbol, PC Steward found an unfamiliar substance surrounding the large mark. After that, the three men also noticed a size 10 shoe print positioned around the unusual symbol. Forensic officers were called in to identify what the slime-like substance was and who the owner of the shoe could be.

"We made sure to question Mr Walker about what time he left the school and if he had seen anything unusual to try and work out what time the mark was made," commented P.C Briers.

After an investigation of the crime scene, PC Steward and Briers had gone to question

Mrs Pepper and Mr Withers who had called the police earlier on. Worryingly, when they arrived at the residents' homes neither of them were there; even more worryingly, the police were told that Mrs Pepper and Mr Withers had gone out to examine the source of the sound and hadn't returned.

Local residents of Wintthorpe Road and Penshurst Avenue (the streets surrounding the school) were also asked if they had witnessed anything different lately. Mrs Knight claimed that she was walking her dog down the street when she over-looked a most, disk-like unidentified flying object (UFO) above her head going towards the school. By the time she got her phone out she explained it had vanished.

It has been over 12 hours since the officers received the call from the missing residents so are now classed as missing persons. If you see Mrs Pepper or Mr Withers, please call the missing persons hotline.

CITIZENS DISAPPEARING, PECULIAR EVENTS; POLICE BEGIN INVESTIGATION

Strange liquid around the school

Yesterday, at approximately 7:30 am, an unusual disruption was reported from Penshurst Primary School, located on Winton Road. Two local residents have officially been classed as 'missing persons' by police.

Humberston police, who had attended the strange scene, discovered an unknown camp formation imprinted on the school grounds.

Several complaints were received by Humberston police from residents of the Hubble community, who had detected a disturbance; Mrs. Pappas, one of the callers in question,

Size tin shoe was uncovered.

still remaining.

The school's caretaker, Graham Walker, a long witness, stated that it was an awful scene. Humberston police have interviewed local residents and police have also said that there was an even bigger problem: two missing residents are missing. This incident has really disturbed me," Mr. Walker explained.

Since the alleged abduction, it appears that some facts are true: 2 people have been abducted and someone or something has broken into the school.

Police urge locals to search for missing residents

was reportedly "very agitated and nervous" regarding the disturbing noises coming around the street. Despite the school alarms, which were not sounded, there was an increase in the calls, so police were sent in patrol cars to investigate the scene.

"When I began investigating, I didn't notice any visible signs of forced entry or any movement," detailed PC Phipps, first officer attending the crime scene. "due to this, I conducted a survey before crossing upon a camp circle - I immediately called for back-up."

After conducting a survey, PC Stewart - who was second officer attending the crime location - described that a peculiar substance was placed on the nearby earth around the camp formation; he was also shocked to have uncovered a size ten shoe (located in the center of the camp circle) marked with the strange liquid which scientists are

Alleged UFO sightings near school

school and caused a huge amount of damage.

Currently, many residents of the community are discussing theories that these peculiar creatures (thought to be aliens) have caused these strange events. As well as this, police have appealed for the public to give any useful information to them and to stay vigilant along the streets at night. Humberston police have resolved to not rest until the investigation is closed.
