Which family type do Christians prefer?

\* [Star] [Star] [Star]

in the past a traditional Christian family highly followed patriarchy. The men were the leaders in the house and were responsible for provision for the family. The women however were expected to take control of the domestic life and stay at home with the children. Some people took this to the	extreme and believed that women were servants for men and should go to any means to satisfy their husbands. Recently we have begun to see a huge change in the way families are arranged. We are seeing an increase in stay at home dads and many more women are working in jobs that historically were deemed to be masculine. These changes have promoted	women to stand up for their rights and fight for equality against men. Besides the roles of mothers and fathers changing, lots of families have children being raised by step-parents or grandparents. Some people have beliefs that these changes aren't a good thing but really they are. Women can now live their own lives and feel loved in society.

## I can explain why The Trinity is important to Christians

# Year 10

I can explain  
why The  
Trinity is  
important to  
Christians

CE Explain what Christians mean when they talk about God being a 'trinity' and why it is important? [8 marks]

Christians talk about the Trinity to help God be easier to understand. The Trinity is the father, the Son and the Holy Spirit. The father is important to Christians as they believe that the father is omnipotent, omniscient, omnipresent. They also believe the father is all-wise, all-good, and all-kind. Everything Christians know, he also created everything, as it is believed he created humanity in his image.

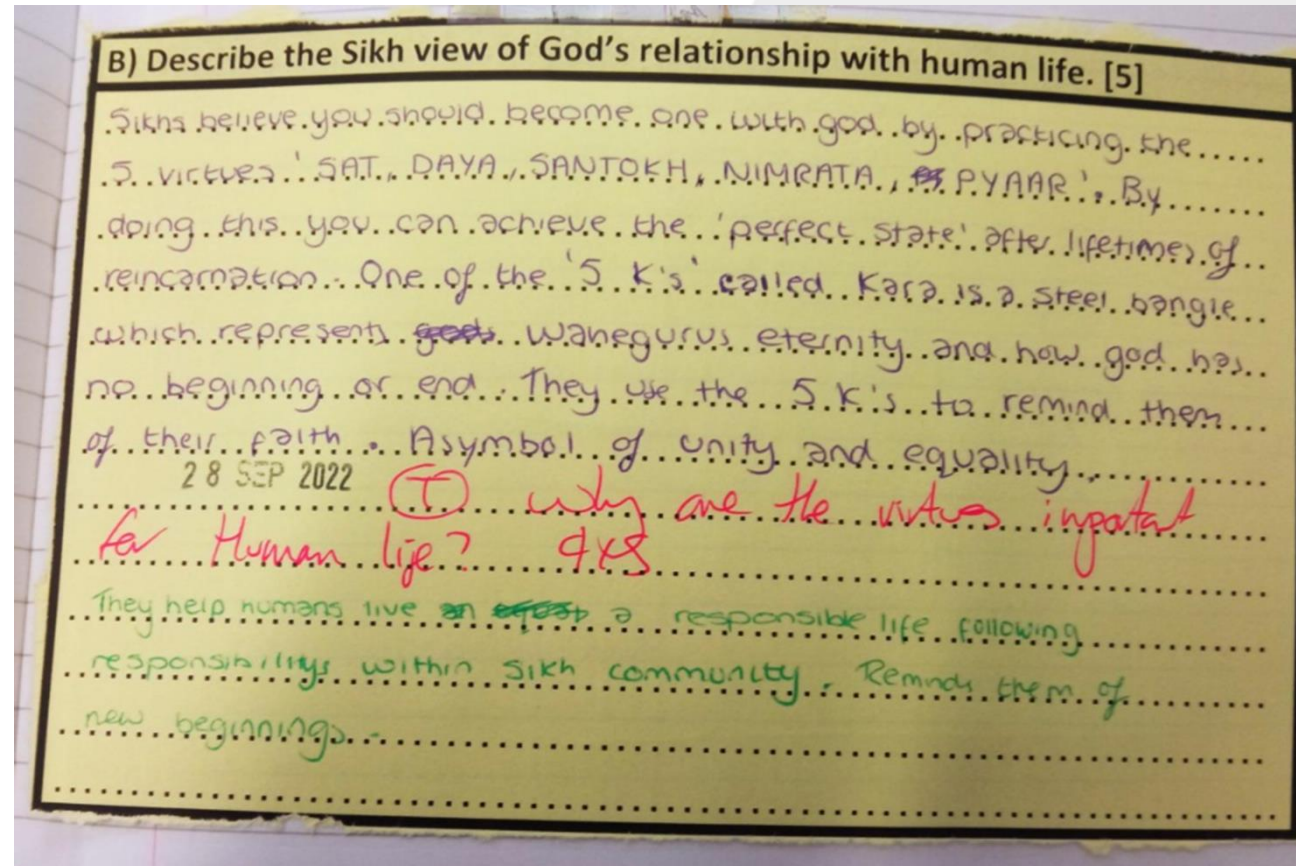

The Holy Spirit is an important part of the Trinity and came after Jesus left earth. The Holy Spirit is important as it is God's presence on earth. It is believed the presence is invisible but helps and protects people on earth who are Christian. It is also believed to be within Jesus while he was on earth and present in water, oil, and during ceremonies. 1.1. NOV 2022

The Son is important as it signifies Jesus. Jesus is the Messiah, a saviour on earth and is important. 6/8
