

## Ahoy Me Hearties

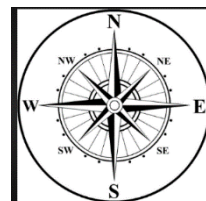

Pirate Blunderbeard has a plan to become the most ferocious pirate ever! He is going to overcome his fear of fish, stop biting his nails and beat his brilliant brother Blackbeard at something. He is determined not to sink his ship like he has done previously. Disaster strikes when Mum enters him in the Pirate of the Year Award. He has to walk the plank with a parrot perched on his shoulder. Or a chicken, in Blunderbeard's case. With treasure hunting, kraken wrestling and cannonball firing to come, life gets very challenging. In this theme we will be learning all about life as a pirate, locating the seven continents and 5 world oceans to find their looting hotspots! We will also look at famous pirates from the past and find out what made them so feared!
